Subject: Reading/Writing/Listening, Speaking, Viewing
Topics: effective persuasion, narrative writing strategies
Grade: 7
Designers: Christie McCarley

Introduction
<p>Unit Framework Title The Purpose and Power of Persuasion</p>
<p>Unit Framework Annotation In this unit, students will connect the purpose and strategies associated with persuasion to events in their own life. They will read and analyze texts, both fiction and nonfiction, that demonstrate the development of an author’s purpose, perspective, arguments, and supporting evidence. They will compose texts of their own, both fiction and nonfiction, that introduce and develop a perspective through arguments and supporting evidence and that include stylistic devices found in literary and expository writing. They will formulate and conduct a plan for collecting research that will support a position. In addition, they will correctly cite and document sources of information. Students will continue to develop the ability to introduce and discuss issues within a group format. At various times throughout the unit they will analyze and compose suggestions to improve the effects of persuasive writing within a conference situation.</p>

Notes and Reflections

Complete and detailed lesson plans for this particular unit can be found at the bottom of the following page: <http://www.georgiastandards.org/english.aspx>

The tasks listed within this unit are merely suggestions. Teachers may choose to: use them as is or in addition to other tasks, modify them, or replace them with other tasks.

Georgia Performance Standards Framework for English Language Arts – Grade 7

Author’s Chair is an important step of the writing process. During this time, students read aloud to their classmates, *portions of or all of* the text that they have been composing. This allows students the chance to gain confidence in their own work as well as important feedback from an audience. Students should volunteer to read their pieces. You will probably find that many students are reluctant to share at first. As they see other students share and as they experience positive feedback during writing conferences, often, most students will begin to volunteer to share their pieces. The key to encouraging this step is positive feedback and reassurance. That does not mean that teachers should not address problems within the writing; however, the feedback should concentrate on one or two problems at a time and be “sandwiched” between positive comments. Students will also need to be coached in active listening and positive feedback. You may choose to use the active listening task (found in the task bank) to help accomplish this. Teachers may also find that student work shared during Author’s Chair will provide valuable information for planning future instruction. Teachers may choose to write brief commentary on the work being shared.

Please see task bank: Commentary. This task can and should be implemented throughout the year. Teachers can decide where it best fits. Please note: The tasks referenced are suggestions only. Teachers may decide to modify them or move them to other places within the unit to fit the needs of their particular students.

Teach the conventions of Standard English as needed; select elements indicated as problematic during student conferencing.
